Need of Better Sanitary Arrangements.

The Present Condition and What Is Proposed to Be Done to Remedy Affairs.

The sanitary condition of the Territorial Asylum for the Insane has been discovered to be in a horrible condition. In fact, but for the wonderfully healthful climate of the Salt River Valley, it is unquestionably a fact that the death

rate amongst the inmates of that institution must have been appalling. It is not the province of THE REPUB-LICAN to just now fix the responsibility for this sort of thing. The asylum, save for its superintendency and minor official positions - which will no doubt be changed before long-is in different hands now, and the new commissioners

propose to go about remedying the exist-

propose to go about remedying the existing condition of affairs as soon as that work can possibly be accomplished.

On Monday, Commissioners Monihon and Hardy, with Secretary Knapp, paid an official visit of inspection to the institution, going over it thoroughly.

Naturally, the first matter to attract their attention was the sanitary condition. It is perhaps due to the old management and to the present Superintendent, Dr. Titus, to say that affairs are kept in as good condition as is possible with the present facilities. The closets are as clean as they can be kept, but there is no adequate means of carrying off the sewage accumulating from so off the sewage accumulating from so large a number of individuals, many of whom, besides, can take no care of themselves. The attendants do what they can, under very discouraging circumstances. But there is absolutely no place to which the slops can be carried. The new Board at once appointed a committee to suggest a remedy for this sort of thing, and it has been almost decided to put in a sewer three and a quarter miles long to the river. That would be the best method of caring for the sewage, and a competent engineer is to be employed at once to ascertain whether the ployed at once to ascertain whether the scheme is feasible. If it is not, then a cesspool will be built at a sufficient dis-

far away that it will not be offensive and, at the same time to contain all the sewerage. The grounds are to be laid out in some sort of ornamental shape, to provide a pleasant place of resort for the unfortunate demented—for the new board will probably find available that much-talked-of \$8000 appropriation that the old commissioners would not touch— and perhaps the hot yards, walled with brick, in which the inmates are compelled to take the air, can be made pleasantly habitable by the planting of grass and shade trees. As it is, they are prison pens, pure and simple, scarcely more habitable than red-hot

tance from the building, and of sufficient capacity, to at once carry the refuse so

Another improvement in comtempla-tion is the lighting of the grounds and building with incandescent lights, negotiations being under way for the running out of wires by the Phoenix Electric Light Company. It has been found that this will probably be the most eco-nomical, as it is certainly the most desir-It has been found able method of lighting the building.

The water supply is found hardly adequate to the needs of the institution, largely for the reason that the pump used to supply it is in bad working order, and negotiations are pending between the water company and the commissioners looking to the laying of a main from the Phonix standpipe to the Asylum, thus affording a constant, uniform supply of the purest water and af-fording the only possible protection

ashes, with, perhaps, an accompanying loss of life only surpassed by some of the greatest holocausts of modern times. The new commissioners, on the whole, have begun in exactly the right way, and their course doubtless will receive the commendation of the people and the press of the entire Territory. There is no duty more sacred than the caring for the insane, who, in olden times, were regarded as sacred beings, upon whom rested the hand of God.

THE MARKETS.

NEW YORK, June 3.-In the Stock Market to day only Sugar refineries showed any activity equal to that of the past few days, and while, owing to a false report of a decision of the Court or Appeals against the Sugar trust, the market was feverish and unsettled for the entire forenoon, in the afternoon took a marked stronger tone and a material advance was scored through
